SUMMARY

Lead Product Designer with **9+ years of experience** designing and scaling end-to-end core product experiences in product-led companies across **Fintech for 6M+ users**, IoT, SaaS and AI-native products. Expert in leading product design, from discovery and UX research to high-fidelity UI and delivery, in complex and regulated environments. Proven ability to partner with Product, Engineering, and Data to define product strategy, improve adoption, and drive measurable business outcomes at scale.

EXPERIENCE

Lead Product Designer

heysam.ai 🔗

08/2025 – Present
California, USA
(Remote)

- Partnered directly with the founder to define product vision and early-stage roadmap, translating business goals into scalable UX strategies for an AI-native SaaS platform.
- Owned the full 0→1 product design lifecycle, including UX flows, interaction models, UI systems, and high-fidelity prototyping, ensuring speed without compromising craft.
- Designed AI-driven workflows to improve sales conversations, including intelligent automation, demo flows, and real-time collaboration inside Slack-based environments.

Tech Lead Product Designer

MODO

02/2025 – 08/2025
Argentina (Hybrid)

- Defined UX strategy through **OKRs and roadmap planning** for 2 core squads, acting as the UX decision owner for QR & NFC payments and shaping a compliant, scalable experience adopted by **30+ partner banks**.
- Created a UX QA framework that became the **company-wide standard**, raising design quality and alignment across multiple squads and tribes in a regulated fintech environment.
- Designed and owned the **end-to-end UX model** (POC → pilot → V1 → iterations) for MODO's **NFC tap-to-pay platform**, creating a reusable experience that scaled to **66k+ MAU** and was adopted by **30+ partner banks** via a plug-and-play SDK serving **6M users**.

Product Designer

MODO 🔗

06/2022 – 02/2025
Argentina (Hybrid)

- Led user research and discovery for a **6M+ user** fintech ecosystem, turning insights into product decisions for core payment experiences.
- Owned the **0→1 UX of a loyalty platform**, leading the experience from discovery to a pilot launch with **Axion**, enabling a new business vertical.
- Designed the **SUBE bus card top-up** experience inside the app, supporting **100K+ MAU** the first 6 months.

Product Designer

Drixit Technologies 🔗

11/2020 – 06/2022
Argentina (Hybrid)

- Designed defined and implemented a mobile-first Design System, and selectively merging shared elements from the desktop system, enabling faster and more consistent product development across platforms.
- Designed the V1 mobile experience for on-site managers, supporting real-time supervision of workers operating in high-risk industrial environments.
- Designed the V1 monitoring dashboard to provide at-a-glance visibility into hardware status, including battery life, movement, device ID matching, and operational health of IoT wearables deployed on-site.
- Translated complex industrial safety and IoT data into clear, actionable interfaces, helping managers quickly assess situations and make informed decisions in time-critical contexts.

- Contributed to the platform's role in enabling safe operations during the COVID-19 pandemic, supporting 1 industrial plant in completing overdue maintenance stoppages under social distancing constraints without reported safety incidents.

UX Designer

Summa Solutions 

05/2019 – 11/2020
Argentina (Hybrid)

- Collaborated with multidisciplinary delivery teams (product, engineering, QA) to design and iterate on features aligned with client needs and technical constraints in a software factory environment.
- Contributed to usability and conversion improvements by refining information architecture, interaction patterns, and visual hierarchy across web-based commerce experiences.
- Supported multiple client projects in parallel, adapting quickly to different domains, requirements, and timelines while maintaining design consistency and quality.

Digital Designer

Sony Pictures Television Latin America 

11/2017 – 05/2019
Argentina (Hybrid)

Responsible for the development, design, and production of assets for the Sony Pictures Networks Latin America properties, specifically Crackle, and sometimes extended to Canal Sony, AXN and synergistic partners.

Being in charge of the digital design of Crackle products in Argentina it is also my job to coordinate with team located in Miami and Los Angeles regarding schedules, reviews and other team tasks. Therefore on my daily basis I work both in English and Spanish at professional level. In  order to produce the digital assets I usually work with Adobe softwares using photo editing and photo composition techniques to assure a high quality delivery meeting Sony Pictures standards.
